Joint development and the South China Sea: Some relevant academic literature

This document identifies a selection of books, refereed journal articles and reports that may be of interest to conference delegates.

It should not be considered to be a comprehensive overview of all scholarly work concerning joint development and the South China Sea.

Items are listed in chronological order (and in the case of multi-volume works, by the date of publication of the first volume).

Key reference works

Joint development in the South China Sea

‘Special Issue: Issues in the South China Sea’ (2010) 41 *Ocean Development and International Law*.

**Maritime joint development in other regions and more generally:**

Ted McDorman, ‘Maritime Boundary Delimitation in the Gulf of Thailand’ (March 2003) *Hogaku Shimpo* [The Chuo Law Review], CIX, no. 5-6, 253, 278-279.

Clive Schofield, ‘Unlocking the Seabed Resources of the Gulf of Thailand’ (August 2007) 29 *Contemporary Southeast Asia* 286.
