He is the author of numerous articles and books in the fields of international, comparative, and European law.

## THE WORKSHOP

This practical workshop, intended for scholars in the early stages of their career, will have two principal purposes:

**First**, to offer guidance on research agenda setting and various research approaches and methodologies. It is designed to explore different potentialities for research and writing projects, and will not be a methodological proficiency training exercise.

**Second**, to offer advice on career management: publication strategy in an increasingly quantitative environment, bibliometrics, conferences and workshops, tenure, promotion and mobility.
