

					<p>harvest, reduce post-harvest losses, wastes and discard implemented/ disseminated</p> <p><u>Means of Verification:</u></p> <ul style="list-style-type: none"> - Country report on adoption of technologies, infrastructure investment, best practices and management system to optimize production and reduce post-harvest losses, wastes and discard. - Compilation of technologies adopted, best practices and management systems to optimize the utilization of harvest, reduce post-harvest losses, wastes and discard
	1.1.3. AMS to report on efforts on infrastructure investment related to increase production and reduce post production losses.	<ul style="list-style-type: none"> - Provisions of postharvest facilities i.e. fish landing centers, fish stalls, cold storages and Air Blast Freezers facilities to coastal communities 	ASWGFi, AFCF	2016-2020	<p><u>KPI:</u></p> <ul style="list-style-type: none"> - List of infrastructure investment on production and post-harvest
	1.1.4. Consultation with relevant stakeholders to identify and address investment needs (sustainable production, management systems, post-harvest investment).	<ul style="list-style-type: none"> - Invite private sectors and small farmers to present on investment needs in fisheries to the AFCF meeting 	AFCF	2016-2020	<p><u>KPI:</u></p> <ul style="list-style-type: none"> - Number of consultations conducted - Number. of stakeholders who participated in the consultations <p><u>Means of verification:</u></p> <ul style="list-style-type: none"> - List of companies, Small Farmers invited to the AFCF to present investment needs

<p>1.2 Develop new and appropriate technologies, best practices and management systems to ensure food safety and address health/disease and environmental issues, particularly in the fast growing aquaculture sectors.</p>	<p>1.2.1 Promote the implementation of ASEAN Guidelines for the use of chemical in aquaculture and measures to eliminate the use of harmful chemical.</p>	<ul style="list-style-type: none"> - Conduct regional technical consultation to discuss, review, revise (if necessary) the ASEAN guidelines for the use of chemical in aquaculture and measures to eliminate the use of harmful chemical 	<p>ASWGFi, AFCF</p> <p>Partners: FAO, NACA, SEAFDEC</p>	<p>2016-2020</p>	<p><u>KPI:</u></p> <ul style="list-style-type: none"> - Regional Technical consultation conducted <p><u>Means of verification:</u></p> <ul style="list-style-type: none"> - Proceedings of the RTC - Updated Guidelines - Country Report
	<p>1.2.2 Enhance Collaboration on regional warning system on aquatic animal health and diseases to the OIE Focal Points to inform other AMS of relevant epidemiological events and to raise awareness of new diseases that might pose risks</p>	<ul style="list-style-type: none"> - Develop regional guidelines/mechanism for warning system on aquatic animal health and diseases - Assess the current status of EMS/AHPNS and other emerging diseases in farmed shrimps in Southeast Asia; - Review the status of trans-boundary disease issues in the region in any aquatic organism/product 	<p>ASWGFi, AFCF, Philippines</p> <p>Partners: FAO, NACA, SEAFDEC</p>	<p>2016-2020</p>	<p><u>KPI</u></p> <ul style="list-style-type: none"> - Regional Guidelines/ mechanism for warning system on aquatic animal health and diseases
	<p>1.2.3 Promote blue economy/FAO blue growth initiative in the development of fisheries and aquaculture</p>	<ul style="list-style-type: none"> - Conduct workshop on Blue Economy or Blue Growth Initiative Implementation in Indonesia in 2016 which will invite all AMS and share their experiences. - AMS to implement Blue Economy or Blue Growth 	<p>Indonesia</p> <p>ASWGFi, AFCF</p>	<p>2016-2020</p>	<p><u>KPI:</u></p> <ul style="list-style-type: none"> - Workshop on Blue Economy or Blue Growth Initiative conducted <p><u>Means of verification:</u></p> <ul style="list-style-type: none"> - Report of the workshop on Blue Economy or Blue Growth Initiative Implementation

		Initiative by pilot project and share the experiences in ASEAN Forum	Partner: FAO		
	1.2.4 Promote the implementation of ASEAN Guidelines for Standard Operating Procedures for Responsible Movement of the Live Aquatic Animals	- Pilot implementation of SOP in three selected countries for the ASEAN Guidelines for Standard Operating Procedures for Responsible Movement of the Live Aquatic Animals]	ASWGFi, AFCF, ANAAHC Partners: NACA,	2016-2020	<u>KPI</u> - Pilot implementation of SOP in three selected countries <u>Means of verification:</u> - Report on the pilot implementation of SOP in 3 countries
1.3 Development on adequate capacity among the member countries in implementing specific measures to support more sustainable fisheries.	1.3.1 Promote corporate and public responsibility with regard to sustainable fisheries practices 1.3.2 Identify future issues and specific measures to support more sustainable fisheries	- AMS to report on existing activities related to sustainable fisheries practices - Conduct regional workshop on assessment the identified issues/specific measures to support more sustainable fisheries in collaboration with other development partners - Capacity building for AMSs in implementing the specific measures to support more sustainable fisheries	ASWGFi, AFCF Partners: FAO, ADB, SEAFDEC, and NACA	2016-2020	<u>KPI</u> - Number of awareness activities conducted <u>Means of verification:</u> - Country report on activities related to sustainable fisheries practices - Report of the regional workshop on sustainable fisheries in collaboration with other development partners

1.4. Examine and improve policy settings as necessary to ensure that they do not distort incentives for output increases and new technology adoption while ensuring that they incorporate fully the value of environmental assets and costs of resource depletion.	1.4.1 Update and strengthen national fisheries policy, legal and institutional frameworks through consultation and engagement of government agencies, the private sector, fishers, civil society and other relevant stakeholders [refer to POA 7]	- Conduct review of the existing national fisheries policies, legal and institutional framework by respective AMS	ASWGF _i , AFCF, SEAFDEC Indonesia (Interim Secretariat of Public Private Taskforce)	2016-2020	<u>KPI:</u> - Number of in-country fisheries policy, legal and institutional frameworks updated/strengthened <u>Means of verification:</u> - Country report on policies, legal and institutional development on fisheries
	1.4.2. Enhance regional Fishery Information Systems (FIS) and mechanisms to facilitate sharing, exchange and compilation of statistics and information that are required at the sub-regional and regional level and apply, where appropriate, regionally standardized definitions and classifications for statistical data to facilitate regional compilation, analysis and data exchange [POA 4]	- Review existing FIS and relevant statistics and identify gaps - Conduct regional technical consultation on data sharing and exchange, review and standardization of definitions and classifications, and data analysis	ASWGF _i , AFCF, Partner: SEAFDEC, FAO	2016-2020	<u>KPI</u> - Report of the review on existing FIS of AMS
	1.4.3. Develop simple and practical indicators in supporting planning and monitoring of sustainable fisheries [refer to POA 6]	- Review, update and modify (when necessary) the existing indicators being used	ASWGF _i , AFCF, Partner: SEAFDEC	2016-2020	<u>KPI:</u> - Set of Indicators on sustainable fisheries developed/updated and monitored <u>Means of verification:</u> - List of simple and practical indicators

STRATEGIC THRUST 2: Enhance trade facilitation, economic integration and market access					
Action Programme for Fisheries	Activities	Sub Activities	Responsible ASEAN Bodies/Lead Country	Timeline	Indicators of Achievements/Deliverables
2.1 Identify and eliminate non-tariff measures (NTMs) that have no economic or scientific rationale and reinforce efforts to improve trade facilitation and revise, as appropriate, trade-impeding regulatory barriers to minimise adverse effects.	2.1.1 Identify the NTMs that potential to be trade barrier.	- Submission by AMS on list of NTMs	ASWGFi, AFCE	2016-2020	<u>KPI</u> - NTMs identified <u>Means of verification:</u> - Consolidated list of NTMs in AMS
2.2 Certification, inspection, accreditation and traceability	2.2.1. Strengthen fish quality and safety management systems that support the competitive position of ASEAN fish products in the world markets (ISO/IEC 17025 accreditation of national fish inspection laboratories, strengthening capacity and acknowledging the recognized national laboratories, risk analysis and equivalence agreement such as the Mutual Recognition arrangement (MRA)). [POA 61]	- Conduct training and capacity building activities at the national level on fish quality and safety management systems - AMS to report on the existing capacities of national laboratories to address fish quality and safety management issues and perform risks analyses - Promote the implementation of the template on arrangement on the equivalence of fishery products inspection and certification systems	ASWGFi, AFCE, Partner: SEAFDEC	2016-2020	<u>KPI</u> - Summary report from ASM on training and capacity building activities on fish quality and safety management system <u>Means of verification:</u> - List of management systems established/improved - List of arrangement on the equivalence of fishery products inspection and certification

	2.2.2 Harmonise of the accreditation, inspection and certification of aquaculture in enabling the recognition of ASEAN-wide, equivalent requirements.	<ul style="list-style-type: none"> - Conduct regional technical consultations to harmonize accreditation, inspection and certification processes in the Region - Alignment of the national shrimp GAP with ASEAN Shrimp GAP - Implementation of the ASEAN GAqP for food fish 	ASWGFi, AFCF, ASEAN Shrimp Alliance (ASA) Partner: NACA	2016-2020 2016 2016-2020	<u>KPI:</u> <ul style="list-style-type: none"> - Number of AMSs who aligned their national Shrimp GAP with the ASEAN Shrimp GAP <u>Means of verification:</u> <ul style="list-style-type: none"> - Country report on the existing accreditation, inspection and certification at the national level - National Shrimp GAP aligned with ASEAN Shrimp GAP
	2.2.3. Develop traceability systems, with mechanisms as needed to certify or validate the information, for the whole supply chain, and establish regulations in line with international standards.	<ul style="list-style-type: none"> - Develop ASEAN Catch Documentation Scheme (ACDS) - Conduct trial testing of the ACDS in AMS - Conduct regional technical consultation to harmonize ACDS 	ASWGFi, AFCF Partner: SEAFDEC	2016-2020	<u>KPI</u> <ul style="list-style-type: none"> - ACDS developed <u>Means of verification:</u> <ul style="list-style-type: none"> - ACDS trial testing reports in AMS
2.3 Streamline and improve quarantine systems and procedures, and harmonize standards and regulations to facilitate trade.	2.3.1 Involve the private sector in identifying priority products for harmonization of standards and regulations to focus scarce scientific and technical resources on high pay-off products.	<ul style="list-style-type: none"> - Conduct consultations on product standard development 	ASWGFi, AFCF	2016-2020	<u>KPI:</u> <ul style="list-style-type: none"> - List of priority products for harmonization of standards and regulations
	2.3.2 Harmonize standards, technical regulations and conformity assessment procedures as inputs for the establishment of the ASEAN Policy Guidelines on Standards and Conformance, to increase the competitiveness of fishery products on	<ul style="list-style-type: none"> - Develop ASEAN Standards/technical regulations for fisheries products 	ASWGFi, AFCF, Partner: SEAFDEC	2016-2020	<u>KPI</u> <ul style="list-style-type: none"> - Number of standards, technical regulations and conformity assessment procedures harmonized <u>Means of verification:</u> <ul style="list-style-type: none"> - List of harmonized standards,

	regional and international markets [POA 68]				technical regulations and conformity assessment procedures
	2.3.3 Harmonise of the quarantine and inspection/ sampling procedure and Sanitary and Phytosanitary (SPS), bio-security measures for aquaculture products to secure food safety; and develop one stop inspection system	<ul style="list-style-type: none"> - Sharing information and best practices on quarantine, inspection procedures and SPS - Develop regional guidelines and principles on inspection mechanism - Harmonising SPS measures related to aquatic animal quarantine and health certification for exportation and importation among AMS 	ASWGFi, AFCF, Indonesia	2016-2020	<u>KPI:</u> <ul style="list-style-type: none"> - Regional guidelines and principles on inspection mechanism developed - SPS measures related to aquatic animal quarantine and health certification for export and import harmonized
2.4 Enhance regional and international cooperation to ensure that all major ASEAN food market are integrated, and the food trading system is strengthened and utilised to provide stable food supplies.	2.4.1 Establish business linkages among the potential fisheries cooperatives and fishers/farmers organisation.	<ul style="list-style-type: none"> - Develop regional networking with fisheries cooperatives and fishers organisation to support access to the international market 	ASWGFi, AFCF	2016-2020	<u>KPI</u> <ul style="list-style-type: none"> - Regional networking with fisheries cooperatives and fishers organization established <u>Means of verification:</u> <ul style="list-style-type: none"> - Directory of fisheries cooperatives and fishers organization
	2.4.2 Promote strategic partnership with ASEAN Fisheries cooperatives and farmers organization, producers, consumers and traders.		ASWGFi, AFCF Partner: ASEAN Seafood Federation	2016-2020	<u>KPI</u> <ul style="list-style-type: none"> - Number of partnerships with ASEAN Fisheries cooperatives and farmers organization, producers, consumers and traders forged <u>Means of verification:</u> <ul style="list-style-type: none"> - Directory of ASEAN Fisheries cooperatives and farmers organization, producers, consumers and traders

**STRATEGIC THRUST 3:
Ensure food security, food safety, better nutrition and equitable distribution**

Action Programme for Fisheries	Activities	Sub Activities	Responsible ASEAN Bodies/Lead Country	Timeline	Indicators of Achievements/Deliverables
3.1 strengthen the contribution of fisheries to food security and nutrition	3.1.1 Improve food security and nutrition through diversifying food sources from fisheries and aquaculture strengthening the quality and variety of food fish production as well as improving the food value chains.	<ul style="list-style-type: none"> - Seminars/trainings on improving quality variety of food fish production (nutrition) 	ASWGFi, AFCF Partner: SEAFDEC	2016-2020	<u>KPI:</u> <ul style="list-style-type: none"> - Number of seminars/trainings conducted
3.2 Food Safety and Health.	3.2.1 Strengthen national policy and accelerate the establishment of food safety and food quality standards and mobilise resources for effective ASEAN wide adoption.	<ul style="list-style-type: none"> - AMS to report on national policy on existing food safety and food quality standards of fisheries products - Develop regional food safety standards aligned to the international standards 	ASWGFi, AFCF Partner: FAO, SEAFDEC	2016-2020	<u>KPI:</u> <ul style="list-style-type: none"> - Regional food safety standards for fisheries products developed <u>Means of verification:</u> <ul style="list-style-type: none"> - Consolidated list of existing food safety and food quality standards in AMS - Regional food safety and food quality standards for fisheries products established
	3.2.2. Collaborate with relevant ASEAN bodies in finalizing and implementing the ASEAN Food Safety Policy, accelerate the establishment of food safety standards	<ul style="list-style-type: none"> - Provide input as requested to the development of ASEAN regulatory framework for food safety 	ASWGFi, AFCF	2016	<u>KPI:</u> <ul style="list-style-type: none"> - Collaboration activities made with relevant ASEAN bodies

**STRATEGIC THRUST 4:
Increase resilience to climate change, natural disasters and other shocks**

Action Programme for Fisheries	Activities	Sub Activities	Responsible ASEAN Bodies/Lead Country	Timeline	Indicator of achievements/deliverables
<p>4.1 Increase investment in R&D for technologies and management systems with a focus on resilience to facilitate climate smart/friendly agriculture, land use, and fishery in cooperation with research programmes and networks on the basis of best practices</p>	<p>4.1.1. Promote collaboration between concerned AMS and Partners to focus on:</p> <ol style="list-style-type: none"> 1. Climate resilient aquaculture/fisheries technologies and approaches 2. Early warning systems/ indicators of climate impacts 3. Climate Change impact mitigation and adaptation strategies for fisheries and aquaculture 	<ul style="list-style-type: none"> - AMS to report on existing initiatives on climate resilient aquaculture/ fisheries technologies - AMS to report on hazard risk assessment and impact mitigation and adaptation in their respective countries. - AMS to undertake studies to determine indicators and climate change impact mitigation and adaptation strategies - Develop mechanism for sharing information and knowledge among AMS on climate change initiatives 	<p>ASWGFi, AFCF Partners: SEAFDEC, FAO</p>	<p>2016-2020</p>	<p><u>KPI</u></p> <ul style="list-style-type: none"> - Number of collaboration between AMS and Partners <p><u>Means of verification:</u></p> <ul style="list-style-type: none"> - Country report on existing initiatives on climate resilient aquaculture/fisheries technologies - Report on hazard risk assessment and impact mitigation from AMS. - Report by AMS to share key findings from climate studies on indicators and climate change impact mitigation strategies
	<p>4.1.2. Promote the use of practical and simple indicators for aquaculture and capture fisheries within the national fisheries management framework, to facilitate adaptation to the impact of climate change.</p>	<ul style="list-style-type: none"> - Information compilation of guidelines relevant to adaptation and mitigation of the impact of climate change - Develop regional guidelines on the indicators for aquaculture and capture fisheries - Develop networking in 	<p>ASWGFi, AFCF Partners: SEAFDEC, FAO, NACA</p>	<p>2016-2020</p>	<p><u>KPI</u></p> <ul style="list-style-type: none"> - Regional guidelines formulated <p><u>Means of verification:</u></p> <ul style="list-style-type: none"> - Guidelines to promote the use of practical and simple indicators for aquaculture and capture fisheries within the national fisheries management framework to

		addressing the adverse impact of climate change on fisheries			facilitate adaptation and mitigation to the effects of climate change - Focal point for the networking on fisheries and climate change established
4.2 Promote good aquaculture practices to minimize the negative effects on natural resources and reduce greenhouse gases	4.2.1. Identify and promote green technologies for adoption, such as low greenhouse gas emission, carbon sequestration from marine waters technology for aquaculture, and Integrated Multi-trophic Aquaculture (IMTA)	- AMS to report on the use of green technologies to reduce GHG emissions from fisheries sector	ASWGF, AFCF	2016-2020	<u>KPI</u> - List of green technologies to reduce GHG emissions from fisheries sector <u>Means of verification:</u> - Country report on the use of green technologies to reduce GHG emissions from fisheries sector
4.3 Encourage sound management and maintenance of natural resources such as coastal and mangrove forests that bolster resilience	4.3.1 Implement measures or strategies at national and local level to (i) monitor and regulate aquaculture operations; (ii) prevent uncontrolled development; and (iii) ensure that activities are carried out in an environment-friendly manner.	- AMS to report on the implementation of strategies at national and local level to (i) monitor and regulate aquaculture operations; (ii) prevent uncontrolled development; and (iii) ensure that activities are carried out in an environment-friendly manner - Establish national data and information, sharing network on critical habitat such as mangrove as well as linkage between relevant institution in AMS	ASWGF, AFCF, Partners: SEAFDEC, FAO	2016-2020	<u>KPI</u> - Progress Report of relevant activities implemented by AMS consolidated and submitted by SEAFDEC to ASEC.

STRATEGIC THRUST 5:

Assist resource constrained small producers and SMEs to improve productivity, technology and product quality, to meet global market standards and increase competitiveness in line with the ASEAN Policy Blueprint on SME Development

Action Programme for Fisheries	Activities	Sub Activities	Responsible ASEAN Bodies/Lead Country	Timeline	Indicator of achievements/deliverables
5.1. Assist small scale producers and SMEs in the FAF sector to become viable and competitive enterprises by provision of better technology, inputs, finance and extension services, access to higher value markets, and by facilitating integration into modern value chains	5.1.1. Assist small-scale producers from both capture fishery and aquaculture to comply with standards on safety and quality of fish and fishery products for securing and maintaining access to markets at the national, regional and international level	<ul style="list-style-type: none"> - Information compilation of relevant activities (eg. Extension services, provide technologies and financial access) in supporting small scale producers in securing and maintaining access to markets at the national, regional and international level - Promote cluster farming for small-scale producers to comply with regional/international standards. - Conduct of trainings and technical assistance on compliance of safety and quality standards of fish and fishery products by providing support programs 	ASWGF, AFCE, Partners: SEAFDEC, NACA	2016-2020	<u>Means of verification:</u> <ul style="list-style-type: none"> - Progress report on activities in assisting small-scale producers from capture fishery and aquaculture to comply with standards on safety and quality of fish and fishery products for securing and maintaining access to markets - Directory of small-scale producers from capture fishery and aquaculture

<p>5.2 Encourage larger scale enterprises to perform a mentoring role by linking with small-scale producers and SMEs through mechanisms such as contract farming to foster adoption of innovations and participation in high value markets.</p>	<p>5.2.1 Promote contract farming in the aquaculture sector on the basis of good governance.</p>	<p>- Promotion of PPP in extending technology from large enterprises to small-scale farmers.</p>	<p>ASWGF, AFCF</p>	<p>2016-2020</p>	<p><u>Means of verification:</u> - Country report of promoting of PPP in extending technology from large enterprises to small scale farmers..</p>
<p>5.3 Livelihoods and poverty alleviation of small-scale operators</p>	<p>5.3.1 Ensure that national programs and policies on fisheries and aquaculture address social, economic and environmental aspects of sustainable fisheries and aquaculture to improve food security, livelihoods, employment and poverty alleviation by (i) providing the mechanisms and enabling environment for good aquaculture practices and responsible fishing, efficient markets and fair trade; (ii) strengthening the capacity of small-holder fishers/farmers; and (iii) promoting inter-agency collaborations [POA 39]</p>		<p>ASWGF, AFCF, Partner: SEAFDEC</p>	<p>2016-2020</p>	<p><u>KPI</u> - Social, economic and environmental aspects of sustainable aquaculture mainstreamed in national programs and policies</p> <p><u>Mean of verification:</u> - Country report on the national program and policies on fisheries and aquaculture address social, economic and environmental aspects of sustainable fisheries/aquaculture to improve food security, livelihoods, employment and poverty alleviation</p>

**STRATEGIC THRUST 6:
Strengthen ASEAN joint approaches on international and regional issue**

Action Programme for Fisheries	Activities	Sub activities	Responsible ASEAN Bodies/Lead Country	Timeline	Indicator of achievements/deliverables
6.1 Enhance coordination and develop joint approaches through consultations among AMS and related ASEAN bodies in regional and international fora in order to gain a better hearing for its views and proposals, and obtain more favourable outcomes in negotiations and agreements affecting FAF sector (vision/sp)	6.1.1 Collaborate with relevant regional and international partners on assistance on Capacity Building in the region to address international trade related issues and develop joint approaches [FCG/ASSP Project 1]	- AMS to participate in SEAFDEC, NACA and FAO programme to built capacity on international trade related issues.	ASWGFi, AFCF, Partner: SEAFDEC , NACA, FAO	2016-2020	<u>KPI</u> - Number of collaborative project and activities with SEAFDEC
6.2 Present ASEAN common position on the issues affecting fisheries sector (refer to vision/sp)	6.2.1. Promote dialogue among AMS to establish common position on Fisheries issues that impact the ASEAN Region, which can include issues related to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), Codex Alimentarius Commission, Food and Agriculture Organization of the United Nations (FAO), Office International des Epizooties (OIE), Regional Fisheries Bodies (RFBs), World Trade Organization (WTO), and Asia-Pacific Economic Cooperation	- AMS to participate in regional technical consultation/meeting to establish common position. -	ASWGFi, AFCF, Partners: SEAFDEC, NACA	2016-2020	<u>KPI:</u> - Number of common position on issues affecting fisheries agreed upon <u>Means of verification:</u> - Common position on the issues affecting fisheries submitted to relevant international organization (CITES, OIE, Codex, etc)

	(APEC) etc.				
	6.2.2 Increase participation and involvement of Member Countries in international fora and technical committees and promote ASEAN interest, recognizing that fisheries policies of relevance to the ASEAN region are increasingly discussed and agreed upon at the global level [refer to POA 76]		ASWGF, AFCCF, Partner: SEAFDEC	2016-2020	<u>Means of verification:</u> - AMS actively participated to the international fora such as UNFCCC, CITES, etc.
6.3. Engage with regional and international processes to enhance ASEAN cooperation to improve the governance of trans-boundary fishing and traceability of fishery products in order to combat IUU fishing. In particular, improve the regulation and control of fishing vessels through registries, the use of vessel monitoring systems and effective catch documentation schemes.	6.3.1. Foster cooperation among ASEAN Member Countries and with international and regional organizations in combating IUU fishing [POA 8]	- Organise “High-level Consultation on Regional Cooperation in Sustainable Fisheries Development Towards the ASEAN Economic Community: Combating IUU Fishing and Enhancing the Competitiveness of ASEAN Fish and Fishery Products”	ASWGF, AFCCF, Partner: SEAFDEC, Thailand ASWGF, AFCCF, Partner: SEAFDEC Singapore	2016-2020	<u>KPI:</u> - Joint Declaration on Regional Cooperation for Combating IUU Fishing and Enhancing the Competitiveness of ASEAN Fish and Fishery Products <u>Means of verification:</u> - Recommendations from the High-level Consultation on Regional Cooperation in Sustainable Fisheries Development Towards the ASEAN Economic Community: Combating IUU Fishing and Enhancing the

(vision/sp)		- Development of the ASEAN Catch Documentation Scheme			Competitiveness of ASEAN Fish and Fishery Products - ACDS established
	6.3.2. Strengthen regional and national policy and legislation to implement measures and activities to combat IUU fishing, including the development and implementation of National Plan of Actions (NPOAs) to Combat IUU Fishing, and promote the awareness and understanding of international and regional instruments and agreements through information dissemination campaigns [POA 21]	- AMS to report on the development and implementation of NPOAs to Combat IUU Fishing	ASWGFi, AFCF, Partner: SEAFDEC, FAO	2016-2020	<u>KPI</u> - Number of NPOAs developed and implemented. <u>Means of verification:</u> - Country report on the development and implementation of NPOAs to Combat IUU Fishing - Compilation of NPOAs
	6.3.3. Establish and strengthen regional and sub-regional coordination on fisheries management and efforts to combat IUU Fishing including the development of regional/sub-regional Monitoring, Control and Surveillance (MCS) networks. [refers to POA 22]	- Develop monitoring, control and surveillance (MCS) networks at regional and sub-regional level - Encourage sharing information on IUU lists among AMS	ASWGFi, AFCF, Partner: SEAFDEC, RPOA –IUU Secretariat	2016-2020	<u>KPI:</u> - Monitoring, Controlling and Surveillance (MCS) networks at regional and sub-regional level is strengthened
	6.3.4 Build up the capacity among AMS including functions for regional and sub-regional cooperation, to effectively meet the requirements of port State measure and Flag State Responsibilities (POA 24). (to include) outcomes from the expert meeting related to port State measure	- Establish a model or pilot site for Port State Measures (PSM) implementation in the AMSs to combat Illegally, Unregulated, Unreported (IUU) Fishing - Capacity building	ASWGFi, AFCF, Partner: SEAFDEC, Malaysia	2016-2020	<u>KPI</u> - Model or pilot site for Port State Measures (PSM) established and implemented <u>Means of verification:</u> - Pilot site for PSM is established in one of member country. - Capacity building activities conducted

		<ul style="list-style-type: none"> for fisheries inspectors in the implementation of PSM - - 			
	6.3.5 Implement the ASEAN Guidelines for Preventing the Entry of Fish and Fisheries Products from IUU Fishing Activities into the Supply Chain	<ul style="list-style-type: none"> - AMS to report the implementation of ASEAN Guidelines for Preventing the Entry of Fish and Fisheries Products from IUU Fishing Activities into the Supply Chain 	ASWGFi, AFCF Partner: SEAFDEC	2016-2020	<ul style="list-style-type: none"> - Country report on the implementation of ASEAN Guidelines for Preventing the Entry of Fish and Fisheries Products from IUU Fishing Activities into the Supply Chain
