REGIONAL FRAMEWORK AND ACTION PLAN TO IMPLEMENT

THE ASEAN DECLARATION ON STRENGTHENING SOCIAL PROTECTION

Vision : Uplift the quality of life of ASEAN peoples by 2025.

Goal : Enhance the well-being, welfare, and livelihood of the peoples throughout their life cycle.

Objectives :

a) Reduce poverty, inequalities, vulnerability, and other risks.

- b) Enhance capacity of the poor and vulnerable groups.
- c) Achieve inclusion and enhance equitable access of the poor, at risk, and vulnerable groups including but not limited to persons with disabilities, older people, youth, women, children, undernourished, victims of disasters, migrant workers, to opportunities and social protection.
- d) Move towards the equitable and sustainable development of the target groups.

Principles¹

Strive to adhere to the following principles that are applied in accordance with the domestic laws and policies of respective ASEAN Member States, nationally-defined social protection and its national priorities, and adapted to the different contexts of ASEAN Member States:

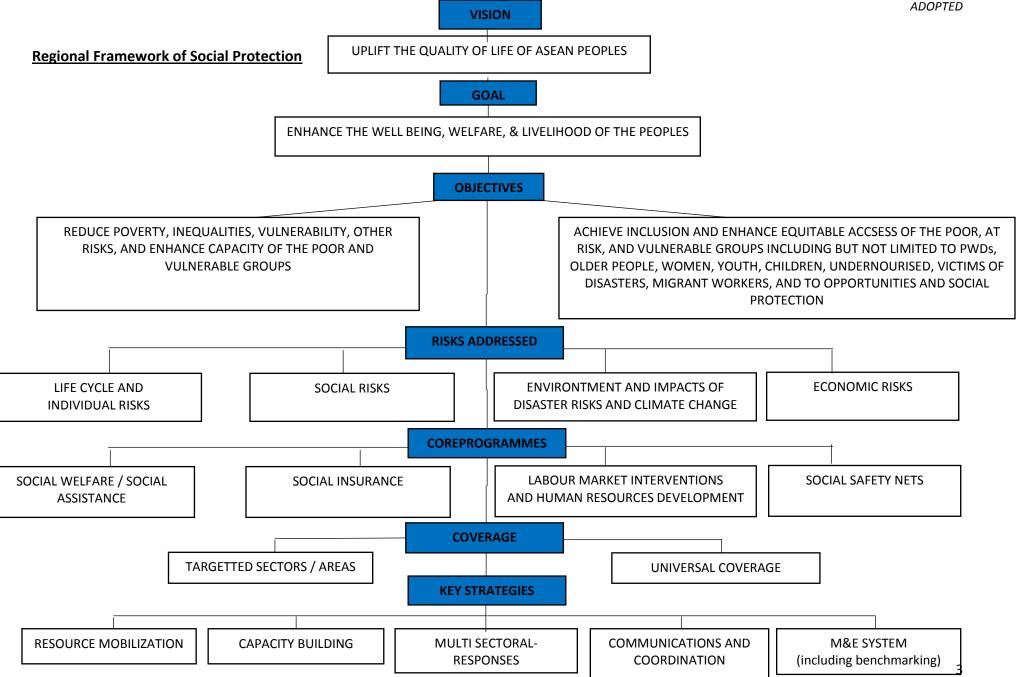

- 1. Everyone, especially those who are poor, at risk, persons with disabilities, older people, out-of-school youth, children, migrant workers, and other vulnerable groups, is entitled to have equitable access to social protection that is a basic human right and on a rights-based/needs-based, life-cycle approach and covering essential services as needed;
- 2. Extending coverage, availability, quality, equitability and sustainability of social protection should be gradually promoted to ensure optimal benefits to the beneficiaries;
- 3. Social protection covers, but is not limited to, social welfare and development, social safety-nets, social insurance, social assistance, social services, in ASEAN Member States;

¹ These principles are cited from the ASEAN Declaration on Strengthening Social Protection adopted by the Leaders at the 23rd ASEAN Summit in 2013.

- 4. Implementation of social protection should be based on respect for fundamental freedoms, promotion and protection of human rights, promotion of social justice, social solidarity, non-discrimination, accessibility, reasonable accommodation, gender equality, social inclusiveness, coherence, and accountability;
- 5. Implementation of social protection towards progressive realisation in ASEAN Member States is the main responsibility of the respective governments based on national legislations, policies, programmes, strategies, standards and guidelines;
- 6. Social protection is a cross-cutting issue, hence its implementation requires coordinated and holistic approaches with the involvement of governments, private sectors, development partners, civil society, service providers, and other stakeholders, where appropriate;
- 7. Family unit and the community are an important element in supporting and delivering social protection services and therefore should be strengthened and preserved;
- 8. Inclusive and participatory approach should be ensured in the planning, programming and budgeting, implementation, monitoring and evaluation processes of social protection at all levels in the region to realise the strengthening of institutional capacity, transparency and responsiveness to the needs of those concerned;
- 9. Social protection is an investment in people that should be supported by adequate resources in order to empower them to meet their basic needs;
- 10. Social protection shall be adaptive to the different risks such as lifestyle and individual risks, social risks, and emerging risks and vulnerabilities faced by the region such as, but not limited to, changes in the economy and labour markets and impacts of climate change, disasters and economic crises.

Definition of social protection:

Interventions that consist of policies and programmes designed to reduce poverty, inequalities, and vulnerability by assisting the poor, at risk, vulnerable groups such as but not limited to persons with disabilities, older people, youth, women, children, undernourished, victims of disasters, migrant workers, and as well as families and communities to enhance their capacities to better manage risks and enhance equal access to essential services and opportunities on a rights based/needs based approach. Definitions of migrant workers and applicability of social protection schemes shall be in accordance to the prevailing national laws, policies and regulations of ASEAN Member States.
