

I Made Andi Arsana

Department of Geodetic and Geomatic Engineering, Universitas Gadjah Mada, Indonesia

Dr I Made Andi Arsana is a lecturer and researcher at the Department of Geodetic Engineering, Universitas Gadjah Mada, Indonesia. He is currently appointed by the Indonesian Ministry of Foreign Affairs as an expert of the technical team of Maritime Boundary Delimitation between Indonesia and its neighbouring countries. He obtained his PhD from the Australian National Centre for Ocean Resources and Security (ANCORS), University of Wollongong and a master's degree from the University of New South Wales, Australia. Dr Arsana is also an alumnus of the UN-Nippon Foundation Fellowship, a research and internship programme organised by the UN Division for Ocean Affairs and the Law of the Sea (DOALOS). For the programme, he conducted research at ANCORS and UN DOALOS in New York in 2007.

In relation to this expertise he was involved in the revision of the 5th edition of Manual on the Technical Aspects of the United Nations Convention on Law of the Sea (TALOS) published by the International Hydrographic Bureau, Monaco. He has published around 230 works in the fields of geospatial aspects of ocean affairs and the law of the sea in journal articles, books, conference proceedings, and popular-scientific articles both in English and Bahasa Indonesia. He is a productive opinion author with more than 65 articles in the Jakarta Post. He has presented his various works in several international fora in Asia, Australia, America, Europe and Africa since 2005. A president of an African country invited him in 2013 for advice regarding his expertise on maritime boundary delimitation. For his achievement in scientific and popular publications, Dr Arsana has received awards from Australia, France, Germany, the Netherlands and Indonesia.
