

# Sustainable Development in EU Foreign Investment Law

**Stefanie Schacherer**

In *Sustainable Development in EU Foreign Investment Law*, Stefanie Schacherer offers an account of the legal effects of sustainable development within the EU's international investment policy and global investment governance. The author provides a clear assessment of how the EU contributes to the ongoing debate on sustainable development integration in international investment agreements. By analysing the EU's post-Lisbon treaty practice, the author critically assesses to what extent the EU has managed to operationalise a sustainable-development-driven foreign investment policy.
