

Mikal Bøe

Founder and CEO of CORE POWER

Mikal is a senior maritime executive with three decades of experience from floor to board level in shipping, finance, and technology.

As Founder and CEO of CORE POWER, Mikal today plays a key role in the development and deployment of a new generation of nuclear reactor technologies as the solution for ocean

transportation to boost productivity and meet its emission reduction targets.

CORE POWER is a UK-based innovation and technology development company, establishing a new market for new nuclear technology in the maritime sector.

In the decade prior to starting CORE POWER in 2018, Mikal served as Chief Risk Officer for two large stock listed ship owning groups in the US and in Asia.

Mikal currently serves as Chair of the 'Maritime Applications and Nuclear Propulsion' Working Group of the World Nuclear Transport Institute.

Mikal is a Norwegian national living in London.
